

Dear Elmhurst Academy Parents
Re: Sun Safety

In an effort to insure sun-safety and with the warmer weather upon us Elmhurst Academy supplies sun screen for all of the children within our program. We ask that parents apply sun screen on their children before school each day during the months of May - September or when the temperature is expected to be 70 degrees or higher. We will re-apply each day before afternoon outdoor activities.

Each classroom will be supplied with gallon containers of Rocky Mountain Hypoallergenic "Peanut-Free" SPF 30 Skin Friendly KIDS Sun Screen. Please see www.rmsunscreen.com for more information. For information regarding Sun Safety, please see www.kidshealth.org

Thank you for your attention!
Elmhurst Academy Health & Safety Committee

Thank You!
